<http://www.treasury.gov/about/organizational-structure/Pages/cohen-e.aspx>

Of the twenty-five(25) senior officials in the U.S. Treasury Department, eighteen(18) are Jews. This is a numerical representation of 72%. Jews are approximately 2% of the United States population.* This means that Jews are over-represented among the senior officials of the U.S. Treasury Department by a factor of 36 times times, or 3,600 percent. This extreme numerical over-representation of Jews among the senior officials of the U.S. Treasury Department cannot be explained away as a coincidence or as the result of mere random chance.

* Jewish Population of the United States by State:
